

Table 3.*Regression Coefficients for Predictors of Coparenting Quality reported by Men*

Couple Values	Coparenting Quality			
	B	S.E.	β	P
Conservation	.084	.054	.154	.122
Openness to change	.131	.078	.172	.096
Self-Enhancement	-.024	.063	-.037	.709
Self-Transcendence	.304	.071	.412	.000
R	.542			
R ²	.294			

Note. B = unstandardized Beta values; S.E. = standard error; β = standardized Beta values; *p* = p-value for Beta values significance
